Realm Digital expands services to the UK

Issued by Realm Digital   17 Nov 2011

Realm Digital, a top South African e-business strategy and technology partner, specialising in Web, Social and Mobile platforms, has been in the Digital.co.za/page/service/ software and web development industry for over 10 years; servicing clients both locally and internationally.

Multiple companies have realised the importance of embracing digital and as a result are setting aside more than 50% of their marketing budgets for Digital.co.za/page/service/ Web, Mobile and Social platforms. Realm Digital saw the opportunity and realised the importance of offering their Digital.co.za/page/service/ services across global markets. As a result, they have expanded their current service offering to include the UK market.

The UK office will focus on servicing various industries, whilst maintaining a key focus on retail and publishing and have already secured multiple new clients.

"We are extremely happy with our decision to expand our Digital.co.za/page/service/ service offerings to the UK. In the near future, we plan to continue our global expansion, including more international marketplaces to help us meet our objective of being a strong digital solutions partner to many brands across multiple industries," says Wesley Lynch.

If you are keen to know more about the work we are doing globally then Digital.co.za/page/contact-us/ contact us for more information.
