

# The BassAwards

MADRID, SPAIN: BassAwards rewards professionalism and design excellence, differentiating the winners as benchmarks in the field of international Broadcast Design.

Out of the 15 finalists shortlisted by the pre-jury, only the 7 best valued by the jury will be awarded: 1 Gold, 1 Silver and 5 Bronze.

The categories Best Young Talent and Best Social will follow the evaluation criteria described in the Selection criteria.

Winners will be announced around February 2012.

Awarded pieces and winners will be included in related advertising and promotional materials. All winning works will be announced on [www.bassawards.org](http://www.bassawards.org).

BassAwards was created to reward the application of high quality design in the audiovisual industry annually and internationally. We want to award in each category the bests works of the actors involved - TV Channels, studios - and give them the recognition they deserve.

The registration period of professional pieces ends 31 December. Nowadays and until 10 December we want to reward all entrants who are submitting pieces, having launched this special promotion. This initiative aims to see the best works around the world. We offer participants the possibility that having registered two pieces, they can submit one more free of charge.

For more information go to [www.bassawards.org](http://www.bassawards.org) and [here](#).
