

Africa gTLD gets roadshow

The .africa roadshow will conclude with the launch of the geographic top-level domain (gTLD) at the African Union headquarters in Addis Ababa, Ethiopia in January 2018. Regions of East, West, North, and Southern Africa will form part of the roadshow, which will include an attempt to summit Mount Kilimanjaro by the .africa team.

Registry Africa is the administrator of the .africa gTLD.
