

# The Radio Awards 2020 introduce Station Manager's Choice category

The Radio Awards has added a new category for the 10th instalment of the awards programme.

The Station Manager's Choice award is open to anyone who works behind-the-scenes and is not on air - from a PA to a member of the finance department, a sales executive or someone who brings unique energy and positivity to the work environment.

Nominations for the Station Manager's Choice award may be made via an online portal when entries open on 3 February 2020. Further details will follow in the coming weeks, but station managers are encouraged to start their considerations in the meantime.
