The Covid-19 pandemic has already significantly impacted local businesses and will have a notable and potentially lasting impact on our economy.

Many of the challenges that SMEs are currently facing have only been made worse by the Covid-19 crisis. This is according to the [McKinsey & Company report](#), 'How South African SMEs Can Survive and Thrive Post Covid-19'.

The report shows that some of the challenges entrepreneurs are dealing with are low awareness of funding opportunities, market access, limited use of technology to reach new customers, and business compliance, among others.

Drivers and survivors

[SME South Africa](#)'s mission has always centred around helping small businesses thrive and supporting them is more important now than ever before.

To empower entrepreneurs during this challenging time, SME South Africa has launched a series of free [Covid-19 Business Support Resources](#).
