

Mpact coughs up new solutions for medical packaging

Issued by [Mpact](#)

25 May 2018

Mpact Plastics produces a range of high-clarity PET and conventional Vinyls medical round bottles aimed at the pharmaceutical industry.

Available in 50ml, 100ml and 200ml sizes, these bottles constitute a holistic offering for specific market needs. Whilst both Vinyls and PET bottles offer appropriate barrier properties, PET offers the added benefit of higher pack clarity.

The Atlantis, Western Cape, plant of the Mpact Plastics division is well-positioned to supply medical round bottles together with accompanying childproof and tamper-evident closures to small, medium, and multi-national customers.

The three closure options all take functional and cost requirements into account. The snap-on /3 and 28mm 1810 closures offer a tamper-evident and cost-effective solution, while the childproof closure has added safety benefits.

Across these ranges, Mpact has enjoyed stable demand with the medical round product lines. The company's innovative approach to improving on product offerings is both raw material and design-based.

About Mpact

Mpact is a leading producer of rigid plastic packaging and cling film, producing a range of packaging and serving a multitude of blue-chip customers within various industries, including products for the food, beverage, personal care, homecare, pharmaceutical, agricultural, industrial and retail markets.

smarter, sustainable solutions

Mpact Plastics is a leading producer of rigid plastic packaging and cling film in southern Africa. We operate out of nine production centres across the country, providing packaging from plants with relevant certifications. We service the food, beverage, personal care, home care, pharmaceutical, agricultural and retail markets. In upholding company values, and as a supporter of the circular economy, we positively contribute to industry associations, enabling various communities to participate in recycling solutions.
