

Find décor inspiration at upcoming East Coast Radio House & Garden Show

This year's East Coast Radio House & Garden Show, themed 'Home is Where the Heart is', is set to take place from 29 June to 8 July at the Durban Exhibition Centre in KZN. The annual event will provide trend-driven inspiration from local décor experts for timeless spaces that are centred on providing comfort and practicality, while emphasising individuality.

Visitors can expect to see top trends on display as flashbacks from yesteryear re-emerging in new ways. Think bold floral patterns as well as geometric and organic forms from the 70s; the minimalist Scandinavian style of clean lines, raw wood and natural light; as well as subtle inclusions of mixed material, brass or copper metallic elements and earthy, warm colours.

Discover Durban Design

The unique Durban lifestyle is a big part of why locals love the area and embrace the vibrant, diverse culture that defines it. Showcasing some of this local flair is the introduction of Discover Durban Design, a new concept to the show that will celebrate local products, furniture and fashion. In keeping with the local theme, the first weekend of the event will showcase the popular Home Grown Design Fair pop-up feature, focusing on artisanal design and décor products made by talented, local crafters and design studios.

Kids decor

Another addition to the line-up is a focus on décor for kids' spaces. Parents looking for help in decluttering and redecorating their children's rooms or living spaces can find workable solutions with Genevieve Motley, designer, blogger and founder of inspirational kids décor and handmade toys online store, Olly Polly.

Joining Olly Polly will be joined by a number of concepts to incorporate into kids' spaces that make up a show feature called The Edit. Visitors can explore a selection of rugs, wallpapers, nursery furniture, bedding, hanging tents, tee-pees, wall hangings, floor cushions, throws and blankets, night lights, garlands, cushions, clothing, macramé and more.

Interior transformations

East Coast Radio House & Garden Show 2018 will showcase local interior specialists in traditional African printed

accessories and fabrics, captivating art, lazer-cut home décor, natural fibre and vinyl rugs, blended concrete and wooden furniture, embroidered pure cotton percale linen, handcrafted furniture and décor, handcrafted quality silk and real flower arrangements and customised hardwood furniture.

For kitchen interiors, embrace the year's trends with colour palettes found in nature, customised and personalised pieces, hidden storage, technological ease and the industrial-look. Learn how to incorporate these trends into the kitchen with new sintered stone surfaces, sleek built-in cupboards, custom-made furniture, quartz countertops, wall panelling, gloss laminated board and accessories.

Bathrooms can be transformed into a modern spa by incorporating 2018's colour schemes of dark matte finishes, brass or gold fixtures, dramatic patterned wallpapers and flooring, mixed tiling and sunken baths - taken to new heights with luxury tile brands, bathroom accessories, bathroom fixtures and lighting.
