

Morvite serves breakfast at Rydavale Primary School

Early in February 2012 Morvite handed over a donation of stock to the pupils of Rydavale Primary School.

The pupils were treated to a breakfast while watching the educational show, Umama Nami, put together by HDI Youth Marketeers. In addition, Morvite took the Umama Nami team to Rydavale Primary school to put on an educational show for the pupils of the school and give back to the community. Morvite believes it is important that we give the children of South Africa the best opportunities to go as far as they can in life and to achieve the best they possibly can. Learning and education plays an important role in accomplishing this. Morvite will be supplying the school with Morvite Original stock for breakfast for every second week of the month for the next 3 months.
