

ALL THE WINNERS!

The 22nd Prism Awards, celebrating excellence in the public relations and communication industry were held at The Capital on The Park in Sandton, Johannesburg on 14 April.

The Awards are presented to public relations and communication professionals who have successfully incorporated strategy, creativity and professionalism in their public relations and communication campaigns.

Marketing and brand consultancy and uber cool thinkers, DNA Brand Architects, walked away with the Campaign of the Year trophy for their AB InBev Lion Lager digital series campaign iLobola Nge Bhubesi. The campaign showcased the agency's strategic thinking and that's precisely why the message landed well with the target audiences. They showed the importance of the partnership between agency and client and truly proved that they were in tune with the times. The campaign showed that brands are not only concerned about the commercial benefits of their work but also ensuring a cultural shift, engagement with the audience, and got the country talking. The judges said it ticked all the boxes.
