Featuring campaigners, leaders and opinion-formers in the arts, design and creative lifestyle as well as the drivers of change who rise to every challenge to honour, preserve and cultivate the arts, the programme is filmed at various interesting destinations.

There is also a new test kitchen for food inserts, free products in every book or music insert and a challenge or an activity in art inserts. Each programme – with a unique theme and refreshing angle – consists of four distinct inserts.

“We invite you to make yourself at home in our living room and travel along in our world of books, food, art, style and entertainment,” says Elzilda Becker, editor and publisher of DEKAT magazine.

“We are also excited to share the DEKAT world and adventure with the big target market and viewer power of SABC 2.

“Thanks to fresh, “out-of-the-box” approaches and often unconventional and radical programme content, as well as a select group of talented presenters (some making their debut in front of the cameras), DEKATv promises exclusive, sparkling entertainment for the next 26 weeks,” she adds.

Presenters viewers can identify with
